Dear Ariel:

The Alliance to Save Energy invites you to join us on a fact-finding trip to Los Angeles, California to learn about policies and best practices that are helping to drive advances in energy productivity across the country. As currently planned, this trip will include several visits in the Greater Los Angeles area and is scheduled for Thursday and Friday, February 22 – February 23, 2018. We have invited staff members from both sides of the aisle and from both Chambers to participate, to ensure well-rounded and robust discussions.

Over the course of the trip, we will visit a leading LED company, a global lighting control and sensor company, one of the nation's largest electric utilities, a research and innovation facility, a leading builder of residential homes and one of the busiest ports in the world.

This fact-finding mission is an excellent opportunity for Congressional staff to learn about state activities and businesses' progress to improve their energy productivity. The exchange can be used to develop, refine and advance policies at the federal, state and local levels.

Thank you in advance for your consideration. We expect a significant level of interest in this trip and, with limited capacity, we encourage you to respond at your earliest convenience as we will be accepting participants on a first-come, first-served basis. To meet the requirements set by the Ethics Committee, we will finalize the agenda and attendee list by January 12th. If you would like to join us, or have any questions regarding the trip, please feel free to get in touch with Reed Brown, the Alliance's Senior Associate for Government Affairs, at rbrown@ase.org or (202) 530-2241.

Best,

Kateri Callahan
